

Purpose

The function of the Intimacy Rules is to establish a character's sex life and emulate their growth and exploration of their sexuality. Initially a character will start inexperienced and learn and grow. As they grow they will learn what they like and get better at intimate acts. New desires will be acquired, new skills and the ability to pleasure others in different intimate ways. Skills should be acquired and improved as a character progresses.

Intimacy Encounter.

Intimacy Encounters are the sexual equivalent of combat - they are resolved over rounds where various actions occur. How long each round lasts in physical time is irrelevant. The encounter lasts until at least one character reaches their Pleasure Threshold

Pleasure Threshold and Arousal Points

Each character has a Pleasure Threshold (PT). This starts at 10. During Intimacy Rounds acts the character accrues Arousal Points until they reach the PT, at which point they are at maximum pleasure. An encounter can complete at any point but usually will happen when all characters are at or near maximum pleasure. A character's current Arousal Point total is called their Arousal Level.

Sexual Experience Level

Each character has a Sexual Experience Level (SEL or SXL). All characters start at 1, which is when the character's only experience is self-pleasure. You can only progress a level in an intimacy encounter that is not solo. A virgin princess who's never felt the touch of man would be SXL 1, while a gigolo would be SXL 10.

Sexual Intimacy Dice (SID)

The SID is basically how good a character is and grows with the SXL. At level 1 your SID is D2 - you're inexperienced and it shows. At level 2 it grows to D4, then D6 at level 3, etc. At level 7 it would be D20 and stays there until it doubles to 2D20 at level 14.

Sexual Actions

Each round a character performs one sexual action. They choose what action to take from their Kink abilities and roll any dice up to their SID limit. Those rolls give the Arousal Points to the target character or characters.

Foreplay and Over pleasuring

You can't rush at intimacy like a bull at a gate. People need foreplay, to warm up and get into the groove. Consequently if you roll an intimacy action that exceeds a target character's current Arousal Level then you will turn off. Reduce a character's Arousal points by the number the roll exceeds their Arousal Level

Example: *Eve is gently stroking Adam's cock when Adam is at arousal level 4. Eve decides to speed it up and rolls a D6 touch. The roll of 6 means she's gone too fast, and Adam's Arousal Level drops to 2 (Roll of 6-4).*

Kinks

Each player starts with 2 Kinks from a list of kinks, plus the Touching kink. Touching could be hold, stroking or kissing other characters. So at level 1 you can do D2 Touching arousal. Some kinks can be Giving or Receiving (GR) - you can pick each kink once for Giving and once for Receiving. A kink may require another kink before you can have it. A required kink must match the GR of the kink you're taking - you can take Breast Torture R when you have Breast Torture G

Kink: Touching

Kink: Penis Oral (GR)

Kink: Pussy Oral (GR)

Kink: Vanilla Sex

Kink: Spanking (GR)

Kink: Breast Play (GR)

Kink: Breast Torture (GR) requires - Breast Play

Feats

A character can have several sexual feats. They acquire a feat every 3 SXL's starting at 3.
